

# Thinking of a Career in Chiropractic?

Join Dr Brian Kelly, President of the New Zealand College of Chiropractic, to hear why enrolling with us could be the best decision you ever make.

“From the first time I had contact with the New Zealand College to the moment I arrived everything went very smoothly.

I chose this college because I wanted to do something different and see another part of the world while studying for what I always wanted to become – a chiropractor.

The College is unique in that it embraces community and inspires you to be the best that you can be.

I love every bit of New Zealand’s beauty and am very happy that I made the decision to study here.”

**Ryan Blouin**

**2nd year student from Ontario**

We would love to see you and your colleagues at this event and anyone you know who may be interested in a career in chiropractic and who are looking for options on where to study.

**Date:** Tuesday 25 May 2010
